

Shutter Panel Specifications:

- Panel Depth: 7/8"
- Material Thickness: 1/8"
- Side Stile (A): See Below
- Divider Rail (B): 2" - 3"
- Bottom Rail (C): 3" - 4"
- Raised Panel (D): Determined by shutter height
- Louvers (E): 7/8" - fixed 18° angle - slanted down with space between
- Shaker Spaces (F): Approximately 3/8" (varies depending on panel height)
- Shaker (G): 2" - 3", positioned at a vertical 0° angle (front facing)
- Arch Drop (H): 1:1, equal to the shutter panel width

Sold in pairs with one right and one left panel.
 Constructed from durable vinyl, fully assembled, and ready for installation.
 Combo panels are made with stapled multi-piece components.
 Combo shutters are decorative only, made with a hollow open back.
 All shutters have a molded wood grain texture and beaded detail.
 Combo shutters are available in one color or a combination of two colors.

Louver Shutter Profile:

Select the desired combination of louvers, raised panel(s), and shaker components.

Available Sizes:

Width	Standard Heights*	Side Stiles
7"	20" - 108"	1.0625"
9"	20" - 104"	1.9375"
10"	20" - 102"	1.0625"
12"	20" - 98"	1.9375"
14.50"	20" - 92"	1.9375"
16.25"	20" - 88"	2.625"
17.75"	20" - 86"	3.625"

*All shutters are available in heights up to 108" in 1/4" increments. Shutters in excess of the standard size will incur additional shipping. See "Shipping" page on readysutters.com for more information.

Measure:

Width: Shutter width depends on the space available around a window, as well as desired appearance. For an appearance of functioning shutters, shutter width should be about half the width of the window (not including the frame).

Height: Measure the height of each window or door (sash) and order the shutters in the same heights (do not include the frame of the window or door in your measurements).
