Below

Louvers (D): 7/8" - fixed 18° angle - slanted down with space between
Arch Drop (E): 1:1, equal to the shutter panel width
Sold in pairs with one right and one left panel.
Constructed from durable vinyl, fully assembled, and ready for installation.
Standard panels are made with stapled multi-piece components.
Louvered shutters are decorative only, made with a hollow open back.
All shutters have a molded wood grain texture and beaded detail.
Standard louvered shutters are available in one color or a combination of two colors.

Louver Shutter Profile: Select number and position of the divider rail(s) in the following configurations.

Available Sizes:

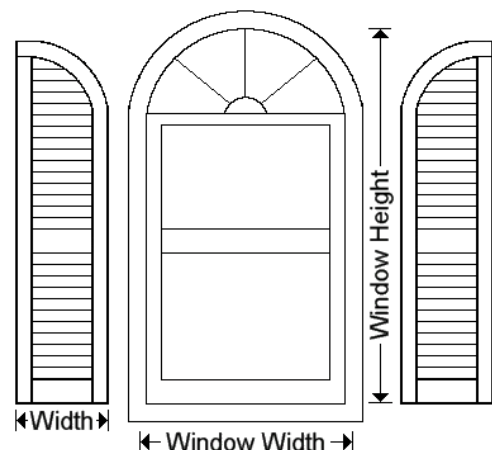

Width	Standard Heights*	Divider Rail	Bottom Rail	Side Stiles
7"	20" - 108"	2"	3"	1.0625"
9"	20" - 104"	2"	3"	1.9375"
10"	20" - 102"	3"	4"	1.0625"
12"	20" - 98"	3"	4"	1.9375"
14.50"	20" - 92"	3"	4"	1.9375"
16.25"	20" - 88"	3"	4"	2.625"
17.75"	20" - 86"	3"	4"	3.625"

*All shutters are available in heights up to 108" in 1/4" increments. Shutters in excess of the standard size will incur additional shipping. See "Shipping" page on readyshutters.com for more information.

Measure:

Width: Shutter width depends on the space available around a window, as well as desired appearance. For an appearance of functioning shutters, shutter width should be about half the width of the window (not including the frame), although not required for non-functional vinyl shutters.

Height: Measure the height of each window or door (sash) and order the shutters in the same heights (do not include the frame of the window or door in your measurements).
