

**Shutter Panel Specifications:**

- Panel Depth: 7/8"
- Side Stile (A): 1" - 4"
- Divider Rail (B): 2" - 3"
- Bottom Rail (C): 3" - 4"
- Louvers (D): 7/8" (18° angle)

Constructed from durable vinyl, fully assembled, and ready for installation. Standard panels are made with open louvers and stapled multi-piece components. Louvered arch top shutter panels are made with an open back. All shutters have an authentic wood grain appearance and beaded detail. Sold in pairs with one right and one left panel. Louvered arch top shutters are only available in a single color.

**Louver Shutter Profile:** Select no, one, two, or three divider rails in the following configurations.

**Available Sizes:**

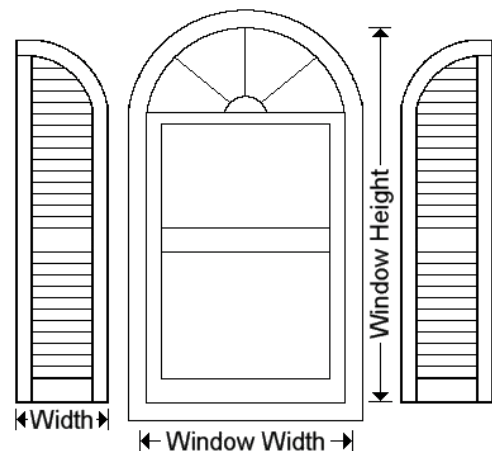

Panel Width	Available Heights	Suggested for Window Widths
14.50"	30" - 92"	25" - 60"

Heights in 1/4 inch increments.

**Measure:**

**Width:** Shutter width depends on the space available around a window, as well as desired appearance. For an appearance of functioning shutters, shutter width should be about half the width of the window (not including the frame), although not required for non-functional vinyl shutters.

**Height:** Measure the height of each window or door (sash) and order the shutters in the same heights (do not include the frame of the window or door in your measurements).
