

Shutter Panel Specifications:

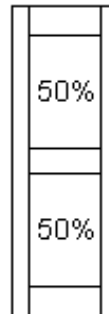

- Panel Depth: 7/8"
- Top Rail (A): 2" - 3"
- Divider Rail (B): 2" - 3"
- Bottom Rail (C): 3" - 4"
- Side Stile (D): 1" - 4"
- Raised Panel (E): Determined by panel size

Constructed from durable vinyl, fully assembled, and ready for installation. One-Piece raised panel shutters are molded as a single form. One-Piece raised panel shutter panels are made with an open back. All shutters have an authentic wood grain appearance and beaded detail.

Raised Panel Shutter Profile:

One-Piece shutters have both a straight top and a centered divider rail. One-Piece raised panel shutters are only available in a single color. Heights of 67" and 75" are only available in black. One-Piece shutters are paintable.

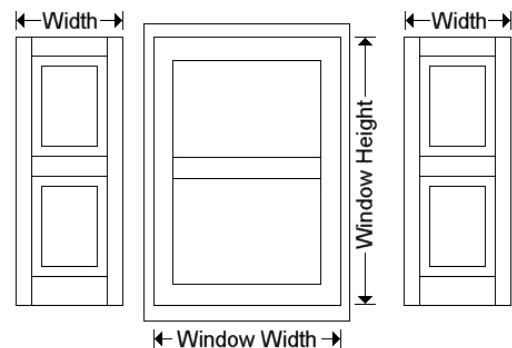

Available Sizes:

Panel Width	Available Heights
12"	35", 39", 43", 47", 51", 55" 59", 63", 67", 71", 75", 79"
14.375"	35", 39", 43", 47", 51", 55" 59", 63", 67", 71", 75", 79"

Measure:

Width: Shutter width depends on the space available around a window, as well as desired appearance. For an appearance of functioning shutters, shutter width should be about half the width of the window (not including the frame), although not required for non-functional vinyl shutters.

Height: Measure the height of each window or door (sash) and order the shutters in the same heights (do not include the frame of the window or door in your measurements).
